1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on September 21, 2007 has been entered.
2. Claims 5-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The scope of the claims is unclear because in claim 5, the preamble recites "consisting of", and in the body, "said dispensing means is" but in claim 6, open language is used (e.g., "includes" in claim 6). See, e.g., MPEP 2111.03. It is therefore unclear how limited the claims are if at least some elements can be made of any number of additional sub-elements.

Claims 1-2 are allowed.

3. Applicant's arguments filed September 21, 2007 have been fully considered but they are not persuasive.
4. The use of "includes" in claim 6 raises a new issue with respect to the scope of the claims as previously noted in the Office Action mailed January 29, 2007.
